## CONDITION OF THE MARKETS

**Higher Prices Abroad and Bullish News** from the Coast Booms Chicago Wheat.

Prices Ranged Up from 1 1-4c to 2cat the Close in Wheat, from 2c to 4c in Oats and Twice that in Mess Pork-Corn Not So Strong.

### MONEY, STOCKS AND BONDS.

Almost Phenomenal Advance in Money, Ranging from 4 1-2 to 10 Per Cent. NEW YORK, May 1 .- Money on call was firm, ranging from 412 to 9 per cent, the last loan being made at 8 per cent., closing at 10 per cent bid.

Prime mercantile paper, 5@612 per cent. Sterling exchange was quiet and steady at \$4.8512 for sixty-day bills and \$4.89 for de-

The total sales of stocks to-day were 396,758 shares, including the following: Atch-160n, 21,989; Delaware, Lackawanna & Western, 6,600; Erie, 2,400; Louisville & Nashville, 8,400; Missouri Pacific, 30,095; North American, 8,840; Northern Pacific, 5,135; Northern Pacific preferred, 28,385; Reading, Paul, 68,712; Union Pacific, 19,170.

The stock market displayed a continuance of yesterday's strength in the fore-noon, but further heavy engagements of gold for export met the tide at its height, and selling orders were put in the market by the "bears," which checked not only the advance in prices, but the ac-tivity in business. The selection of Mis-souri Pacific was made as the stock to "bear" the brunt of the attack. The position of the different parties in the market was not changed in any respect, and although the advocates of higher prices acknowledge the importance of the heavy outgo of gold to which we have been subjected, the favorable influences which first started the upward movement remain in full force. The local trading element is the only material opposition to the advance, and many of them have accepted their losses and gone over to the other side. But there is evidently two parties in the market, and every event is seized to make an impression upon prices. The higher rates for money are well understood to be temporary, perhaps owing somewhat to the effect of the shifting of loans incident to the first of the month, and, therefore, to-morrow is likely to see a return to the former low rates. The industrials were more prominent in the market this morning, and fairly disputed the leadership of St. Paul and Rock Island, each of which was very strong. The former was under complete control of a clique, which is steadily advancing. Both were purchased largely for Western account. In the industrials, both Cordage and Sugar made marked gains, but the remainder of the market was content with small advances. The gold shipment and the selling of Missouri Pacific, however, took all the strength out of the market and

Cordage lost, not only its early advance, out a large fraction in addition, The high rates for money did much to prevent a rally, but some appreciation did take place later in the day. It made little progress, nowever, and the market finally closed quiet and rather heavy withfigures of the day. The late trading was also marked by especial weakness in the grangers, and the net declines in all of them were brought up to material amounts. The changes for the day are small in most stocks, with a majority of losses, but, while Sugar is up 112 per cent., Missouri Pacific is down 158, New England 118 and

Missouri Pacific lost 2 per cent., while

Burlington 1 per cent. The bond market was quiet and sympathized closely with the movements in shares, developing considerable weakness late in the day, and leaving most of the ssues traded in lower than last evening. The Atchison meomes and the Reading issues, Oregon Improvement fives, the Kansas & Texas issues, were all prominent in the dealings, and all are lower this evening. The sales reached \$1,333,000, without

special animation in any issue.

Government and State bonds were dull and steady. Closing quotations were: Four per et. reg ... 1201 Lake Shore ...... 112 our per et. coup. 12019 Lead Trust. NEW YORK. May 1 .- Bar ellver, 9846 per

# TRADING AT CHICAGO.

Deliveries Were Heavy in Wheat and Oats. but Suspiciously Weak in Corn. CHICAGO, May 1.-The grain markets were all strong and higher around the opening this morning. Early cables showed firm and higher markets abroad. Deliveries on May contracts for wheat were about 1,000,000, which went into strong hands, presumably for shipment. The deliveries of corn were next to nothing-only 5,000 bushels-and the cash articles were firm and 2c higher. Advices were received from San Francisco to the effect that wheat had advanced 5c per cental there, because of hot winds on the coast and because of purchases for export to France. These bullish items of news seemed to prevail against all of the bearish intelligence received. Ex- and ports from the Atlantic coast were trifling. Receipts at Duluth and Minneapolis were very large. Some 400 car-loads, and over tracts. Wheat made a sudden little spurt at the opening. The advantage which it gained in the first five minutes was not lost during the session. The crowd of scalpers kept playing for a reaction, but it did not come. Instead of this it held steady to firm, and the scalpers were finally obliged to buy the grain back again at an advance. George Smith bought rather freely during the first half hour of the session. The largest buyer thereafter was White & Co., who were presumed to be acting for Quinlan, of New York. Linn, Ream and others, of the "bear" crowd, were, for the time being, on the "bull" side. July wheat opened at \$1.05½@1.06, against \$1.05 at the close yesterday, and sold up to \$1.06½. It then reacted to \$1.06, advanced to \$1.0658, and reacted to \$1.06½, closing firm.

The insignificant deliveries, the firm cables, the premium for cash and buying by "shorts," gave corn a strong tone at the ontset. Opening sales of July were made at 65 @ 651gc, against 60 @ 631sc at the close yesterday, and sold up to 641ge. At this point Bryant unloaded a considerable line of property, the cash market weakened and estimated receipts for to-morrow came in heavy. The result was a break to 683sc. The tone improved later and the close was

Reports of lice on the cats crop gave the market for that cereal considerable strength, so that St. Louis bought freely. was rather quiet. Heavy receipts alone encouraged the "bears." There were some months.

The business failures occurring throughout the country during the last seven days of the some months.

The business failures occurring throughout the country during the last seven days of the country during th

yesterday, it sold as high as 49c, and closed 3sc below that figure. The provision market was fairly active, but offerings were light. Considering the heavy stocks, the deliveries on May contracts were inconsiderable. Firmness was also imparted from the upward tendency of the price of grain. July pork closed with a gain over yesterday of 5c; July lard and ribs were unchanged. The leading futures ranged as

#### DUN & CO.'S WEEKLY REVIEW. Trade Hardly as Strong as Might Be Ex-

pected for a Promising Spring. NEW YORK, May 1 .- R. G. Dun & Co.'s weekly review of trade says: Business is large in volume and sustained by general confidence as to the future. Wheat and flour exports from Atlantic ports continue far behind those of last year, and while reports of foreign crop prospects are not favorable, there is really no reason to anticipate any shortage or unusual demand from abroad prior to the close of the current crop year. The possible demand next year has to meet it an exceptionally favorable crop outlook.

The reports of trade at other cities are, on the whole, more favorable than a week ago. Boston finds general business better. At Pittsburg the glass business is active and Bessemer iron is active and higher. Cleveland market is inactive, money is in good demand at Detroit the manufacturing interests are sustained by a strong demand. At Cincinnati the dry-goods season has been brisk and collections are about as usual. At Chicago flour receipts are smaller than a year ago, and grain receipts about the same, while an increase appears in cured meats, lard, butter, dressed beef and about 3 per cent. in wool. Sales of dry goods are at least equal to last year's, with very satisfactory payments in that branch, in shoes and in clothing. Trade at other Western and Southern points seems to be especially encouraging this week. Better weather helps almost all Western points, and at Milwaukee trade was never better. At Omaba and St. Paul it is very fair, at Minneapolis flour is dull, but the lumber trade is active, and at Omaha fair weather helps business. Trade is quiet at Kansas City, but improving at Louisville, Nash-ville and Atlanta, with decided strength at St. Louis. For the week it is barely fair at

New Orleans. The great industries are in better shape. The demand for finished products of iron and steel is more encouraging. The woolen manufacturers still hesitate, apparently because the producers are inclined to ask higher prices for the new clip of wool than manufacturers can pay, but there is a belief that the consuming demand for goods must be as large as it ever has been in any previous year, and the clothiers, though very cautious heretofore, begin to act upon that belief. The shoe trade is still retarded by the uncertainty as to prices for the future, but it is nevertheless fairly active. Merchandise exports from New York con-The trading was active until the latter | tinue much larger than a year ago, but impart of the session, when the market | ports are also remarkably large, and there

number 255, as compared with a total of 247 last week. For the corresponding week of last year the figures were 211.

TRADE IN GENERAL

Quotations at Philadelphia, Baltimore, Cincinnati, St. Louis and Other Points. ST. LOUIS, May 1.—Flour steady, but trading light. Wheat opened unchanged to 580 higher, as compared with yesterday's close. The market was rather tame, but values advanced under good buying orders, and although the course was irregular, the tendency was to higher prices until near the close, when values weakened slightly, the close, when values weakened slightly, the fluctuations for the entire session being within a narrow range; No. 2 red, cash, \$1.05\(^1\_2\omega\)1.05\(^3\_4\); May, \$1.05\(^3\_4\omega\)1.07, closing at \$1.07; June, \$1.04\(^0\)1.01\(^3\_4\)4, closing at \$1.01\(^1\_4\)01.01\(^3\_8\)8, August, 99\(^0\)99\(^7\_8\)8, closing at \$95\(^8\_8\)09\(^3\_4\)8. INDIANAPOLIS MARKETS.

The Month Opens Under Favorable Condi-

tions for Trade. INDIANAPOLIS, May 1.-The morning trains brought in a number of country merchants, and they, as a rule, purchased liberal bills, and mail orders were quite large. The month opens with steady, strong prices all along the line and a general belief that the volume of trade will be highly satisfactory the present month. Trade in the grocery line continues active, without any material change in prices. The quality of Southern vegetables coming to our market of late is generally poor. Large quantities of cabbage arriving for a week or two past are little good, and can hardly be given away. Choice strawberries are scarce, but of common stock there is more than enough. Old potatoes of good quality are firm at quotations, but anything in this line below choice is dull and slow. Eggs are firm at quotations. While receipts are sufficient for demand, so many are being gathered in by cold-storage companies that demand is good for all offered. Supply of new cheese fails short of demand, and old is a thing of the past. Country butter is coming in freely and markets are weak. Choice grades of creamery are firm. The provision markets are weak of creamery are firm. ket is active, prices easier on some descriptions but not quotably lower. The iron and hardware markets are active at firm prices. Paints and oils are selling in large quantities; prices strong.

Wheat in the local marked rallied again to-day and advanced to on Thursday's prices, and oats were a shade higher, while corn ruled dull and prices easier. Track bids on the several cereals to-day ruled as

Wheat-No. 2 red. \$1.06; No. 3 red. \$1; reected, 85@95c; unmerchantable, 75@85c. Corn—No. 1 white, 76c; No. 2 white, 69c; white mixed, 68c; No. 3 white, 68@ 70c; No. 2 yellow, 684c; No. 3 yellow, 68c; No. 2 mixed, 684c; No. 3 mixed, 68c; sound ear,

Oats-No. 2 white, 5712c; No. 3 white, 56c; No. 2 mixed, 55c; rejected, 48c. Bran-Local dealers are bidding \$16.50. Hay-Timothy, choice, \$15; No. 1, \$14.25; No. 2, \$12.50; No. 1 prairie, \$8.50; No. 2 prairie, \$7; mixed hay, \$8. Poultry-Hens and chickens, 8@8120 P turkeys, fat, choice hens, 100 # 15; ducks,

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever pro-duced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most

popular remedy known. Syrup of Figs is for sale in 50c and \$1 bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.

The soil for beets should be plowed from twelve to fifteen inches deep, and as much of the beet root grown beneath the surface as possible.

Leading grape-growers in the vine dis-trict about Fredonia, N. Y., put the work of cultivating and pruning a vineyard at about the same cost per acre as growing

Trees planted along the fences and also along the roads take but little room compared to placing them in an orchard, and in some sections the apple answers well for

If your young shade-trees are swayed back and forth by the wind don't neglect to stake them, and protect them from rub bing by cloths properly placed on both

As things are even now, occasionally there is found a farmer who is making money. He goes ahead in a steady methodical manner, does not spend all he gets for feed, and never puts out two dollars to catch one.-Orange County Farmer. Land under good cultivation can be stocked as a sheep farm at the rate of one

acre of pasture for every five head of sheep, and one acre of plowed land for every eight head, and it may be doubted if the average farm can be used to much better advantage than this would indicate. Some correspondents are still asking if wheat ever turns to chess or cheat. Chess is a well-known and distinct grass that, where sown, reproduces itself perfectly.

Wheat, when sown so isolated that there can be no error made, always produces wheat, and never anything else. A pound of concentrated lye in twenty gallons of soapsuds from the family washing will make an effective remedy for lice in poultry-houses, especially if applied hot. For peach trees, around the roots, it is also

excellent as a preventive against the peach tree lice, as well as aphides of all kinds. Now that the little chicks will be out many of our readers will have the dreaded gapes to contend with in the broods. One of the best preventives is to use air-slaked lime on the ground occupied by the chicks. Spade the ground, use plenty of lime, rake the yards and keep the ground raked by going over it once a week; but always scatter plenty of lime, as it will destroy the

gape-worm if used freely. From careful germination tests made by Professor Goff, of the Wisconsin station it has been found that the builed grains of timothy-seed neither germinate so well nor retain their vitality so long as those not hulled; also that timothy-seed, when prop-erly stored, is fairly reliable up to five

is not an experiment; it has been tested and its enormous sale is due solely to its merit. It is made on honor, and good housekeepers say SANTA CLAUS SOAP
"is a necessity." Don't let your dealer
give you some other kind, if he hasn't
Santa Claus, but insist on having only SANTA CLAUS SOAP. N. K. FAIRBANK & CO., Mfrs., Chicago, III.
